Please answer the following questions with a check mark:

Vaccinations:

- 1.) Rabies Vaccination (\$10.00) needed today
- 2.) Distemper combo Vaccination (\$14.00) needed today

DOGS ONLY

■ **Kennel Cough vaccinations are recommended for dogs.**

Please give my dog a kennel cough vaccination today. (\$14.00)

■ I understand that annual heartworm testing is strongly recommended for dogs more than 6 months of age because heartworms are potentially fatal to dogs.

Please test my dog for heartworms today (\$25.00)

I do not want my dog tested for heartworms today

Note: Heartworm preventative may only be purchased if your dog is tested today or if you have written proof that he/she has been tested during the last 12 months. The price of heartworm preventative depends on how much the dog weighs.

CATS ONLY

- I understand that it is recommended that all cats be tested for the Feline Leukemia Virus and Feline Aids Virus because these are contagious and potentially fatal viruses.
 - Please test my cat for these viruses today (\$25.00)
 - I do not want my cat tested for these viruses today

- Feline Leukemia Vaccinations are strongly recommended for outdoor cats to protect them from this contagious and potentially fatal virus. The first year this vaccine is administered, the cat should receive an initial vaccination & then a booster 3 weeks later. After that, only an annual booster is needed. (This vaccination will not be administered unless a test is run to check for the virus first. See question above.)
 - Please give my cat a Feline Leukemia Vaccination today. (\$17.00)
 - I do not want a Feline Leukemia Vaccination today.

DOGS AND CATS

- Fecal samples may be checked to see if dogs or cats have intestinal parasites (worms such as roundworms, hookworms, whipworms, tapeworms, etc.) There is no over the counter wormer which is effective against all of these parasites.
 - Please check my pet's fecal sample for parasites (\$10.00)
 - I do not want a fecal sample checked for my pet

- Worm medication may be dispensed without a fecal sample being run first. Price depends on whether the pet is a dog or a cat and how much it weighs. There is no over the counter wormer that is effective against all of the parasites listed above.
 - Please give my pet worm medication
 - I do not want worm medication for my pet

- Microchipping is the only permanent form of pet identification. A microchip is about the size of a grain of rice and is inserted under the skin between the shoulder blades. If your animal is lost or stolen, animal shelters can check for microchips as can most Veterinarians. The cost of microchipping is (\$35.00)
 - Please have my pet microchipped
 - I do not want my pet microchipped

- Other Services
 - Please have my pet's nails trimmed today (\$8.00)
 - Please clean my pets ears today (\$5.00)
 - Please check here if you would like to purchase heartworm preventative
 - Please check here if you would like to purchase flea and/or tick control
